

# HA30+

**Fast, flexible and semi-automated: The workhorse for professional producers.**

The powerful HA30+ again sets new standards in terms of quality and productivity. The automatic part separation module enables cutting of parts without manual operation. The next print jobs starts immediately after separation (patents pending).

The simple operation and automation of process are convincing for professional and validated use. Furthermore, the temperature-controlled resin reservoir provides process stability and increases part quality even more.

Performance parameters	HA30+
Building area	151 × 85 mm
Native pixel	+/- 39 µm
Max. part height	110 mm (with ASM: 45 mm)
Light source	385 nm UV LED
Resolution	HD 1920 × 1080 px
Dimension (W × H × D)	480 × 690 × 410 mm
Connections	WLAN, TCP/IP, USB
Control	10" touch-screen
New features compared to HA II series	Faster print speed, Automatic part separation module Full cloud connectivity
