

# I30+

**Fast, flexible and semi-automatic.**

The high-performance I30+ sets standards in terms of quality and productivity. The Automatic Separation Module (ASM) enables direct cutting removal of the printed parts. The next print job starts immediately, without manual interaction (patent pending).

The simple operation and automation of the process makes the I30+ convincing for professional and validated use. The temperature-controlled material tray also ensures process stability and increases print quality.

Performance parameters	I30+
Building area	151 × 85 mm
Native pixel	+/- 39 µm
Max. part height	110 mm (with ASM: 60 mm)
Light source	Power UV LED
Resolution	HD 1920 × 1080 px
Dimension (W × H × D)	480 × 690 × 410 mm
Connections	WLAN, TCP/IP, USB
Control	10" Touch-Screen

Automatic separation module (ASM)
