

# S20+

**Professional 3D printers for casting shops, design offices and jewellery manufacturers for easy and fast printing – again and again.**

Bring your design to life: our compact and practical S20+ converts your jewellery design easily into printed parts.

Highest precision combined with highest reliability: with the S20+ you can achieve the top level of quality and repeatability with your printed parts. Fast printing results make the S20+ your essential tool in the implementation of rapid prototyping.

Performance parameters	S20+ fine	S20+ regular	S20+ large
Building area	84 × 47 mm	101 × 57 mm	133 × 75 mm
Native pixel	+/- 21,5 µm	+/- 26 µm	+/- 34,5 µm
Max. part height	90 mm		
Light source	405 nm UV LED		
Resolution	HD 1920 × 1080 px		
Dimension (W × H × D)	335 × 541 × 349 mm		
Connections	WLAN, TCO/IC, USB		
Control	7" LCD-Display, touch control		
Recommended for	micropave designs and stone settings	regular rings and college rings	larger pieces like bangles and statues with large surfaces

Optional Force Feedback

Resin handling system (RHS)

Certified auto calibration (ACCS)

Remote control through TeamViewer®

Low acquisition cost

Professional entry-level printing solution

Fine, regular or large version available
