

# HA20 II

**Perfectly suited for shops with job time down to about 30 minutes.**

HA20 II is pioneering standards for small sized printers and makes no compromise in quality. It combines the fastest speed (patented force feedback technology) needed for immediate patient care with high accuracy and full material choice. Its robustness, integrated display and elegant design complete the picture.

In conclusion it is perfectly suited for shops looking for an ultra-fast machine whose price starts at the lowest price point possible for professional, certified use.
