

# HA30 II

**Most economic solution for labs and medium size producers. High productivity and fast cycle time.**

HA30 II has highest productivity at smallest form factor of housing at a very attractive price point. This can be realized by a large build envelope produced at high speed (patented force feedback technology) and full material choice. Its robustness is proven by hundreds of lab installations already. The elegant design completes the picture.

It is perfectly suited for labs and producers looking for a fast machine with open material system for professional, certified use.

Performance parameters	HA30 II
Building area	130 × 75 mm
Native pixel	+/- 34 μm
Max. part height	90 mm
Light source	UV 385nm high power LED
Resolution	HD 1920 × 1080 px
Dimension (W × H × D)	335 × 541 × 349 mm
Connections	WLAN, TCP/IP, USB
Control	7" LCD-Display, 3-button control
