

HA40 II

Perfectly suited for labs and producers. High productivity and fast cycle time.

Rapid Shape's new HA40II printers combines our many years gained expert knowledge with the latest technical developments. It features a temperature controlled resin reservoir, a large volume of the resin reservoir and two LCD screens for ease of use. The system comes with an extra-large build area and allows even multi-stack printing on 4 levels. Its robustness and productivity is well proven by hundreds of lab installations already.

Therefore, HA40 II is developed especially for labs and producers looking for the most productive and reliable lab system with open material system for professional, certified use.

Performance parameters	HA40 II
Building area	150 × 85 mm
Native pixel	+/- 39 µm
Max. part height	110 mm
Light source	UV 385nm high power LED
Resolution	HD 1920 × 1080 px
Dimension (W × H × D)	480 × 690 × 410 mm
Connections	WLAN, TCP/IP, USB
Control	10" touch-screen, 7" LCD-Display
