

**3D printing is the future.**

**Apply now and grow  
together as a team!**

We are an innovative and successful family-owned company headquartered in Heimsheim near Stuttgart. For industrial applications in the dental, jewelry, industrial, and hearing aid sectors, we develop and produce world-leading 3D printing systems known for their excellent product quality, high degree of automation, and exceptional productivity.

Since our founding in 2011, we have grown into an international team of 200 employees with locations in Germany, the USA, Hungary, and China. Thanks to our sustainable approach, we have grown even faster than the already rapidly expanding 3D printing market – and we want to continue this success together with you.

Are you excited by new challenges and enjoy independent, responsible work? Then you're exactly right with us! We are looking for your support as a:

## **Senior Technical Buyer (w/m/d) for Germany and Eastern Europe**

### **Your Responsibilities:**

- Requesting quotations, analyzing offers, and negotiating purchasing prices and framework agreements
- Responsibility for procurement categories: turned parts, milled parts, sheet metal, PCBs, injection-molded parts, and cable assemblies
- Research, qualification, and approval of new suppliers
- Operational management of complete order processes, including monitoring and enforcing delivery schedules
- Occasional supplier visits in Germany and Eastern Europe
- Support in project management for new product introductions (NPI)

### **Your Profile:**

- Degree in engineering (e.g., industrial engineering, mechanical engineering, electrical engineering) with at least 5 years of experience in technical procurement, design, or production  
or  
at least 10 years of relevant experience in technical purchasing
- Good written and spoken English
- Strong team orientation, high self-organization, and initiative
- Quick grasp of new topics, responsible and structured working style

### **We offer:**

- Permanent employment
- Independent work, flat hierarchies, and open, collegial atmosphere
- Structured onboarding with a mentor and development opportunities
- Innovative environment in the future market of 3D printing
- Company pension plan & JobRad
- Free fruit, beverages, hot meals, and snack options
- Flexible working hours and partial remote work

**Interested?** We look forward to receiving your complete application including cover letter, CV, and certificates via our application form at:
